

11th LATIN AMERICAN CONFERENCE ON PHYSICAL ORGANIC CHEMISTRY

<http://www.relaq.mx/CLAFQO/>

The Organizing Committee cordially invites you to participate in the 11th Latin American Conference on Physical Organic Chemistry (CLAFQO-11), to be held in Riviera Maya, QR, Mexico, November 20 - 24, 2011 (web site www.relaq.mx/CLAFQO/).

CLAFQO-11 is the single most important Latin-American Conference for chemists active in physical organic chemistry.

Following the precedent set by previous conferences in the series, in Venezuela, Argentina, Chile, and Brazil, the scientific program will consist of lectures presented by invited speakers, oral communications and poster sessions.

The Conference will provide an excellent opportunity to present and discuss important advances taking place in most areas of physical organic chemistry, and will offer a forum for the exchange of ideas in both formal and informal ways. Furthermore this will be an excellent opportunity to renew personal contacts with colleagues and friends not only from Latin America, but from all over the world.

We anticipate a highly stimulating meeting, in the beautiful Riviera Maya, Mexico, with attendees from both Hemispheres. The present Conference will take place at the exclusive Barceló Maya Palace Deluxe Convention Center and Hotel.

We look forward to meet you in Riviera Maya, November 20-24, 2011 (International Year of Chemistry).

With best regards,

Eusebio Juaristi

Chairman, CLAFQO-11

Department of Chemistry-CINVESTAV-IPN, México, D.F. (juaristi@relaq.mx)
